

Abstract of the Disclosure

The present invention provides a method and system
5 for direct access to the multimedia mailbox associated
with a wireless unit. The wireless unit subscribes to
the direct multimedia mail service. A calling unit, such
as a wireline phone, wireless phone, or mobile phone,
sends a call request requesting a direct multimedia mail
10 message be sent to the subscriber to the direct
multimedia mail service. The calling unit will be
directed directly to the multimedia mailbox of the
subscribing wireless unit, without ringing or alerting
the called wireless unit to the communication with the
15 multimedia mailbox.
